

**IN THE UNITED STATES PATENT AND TRADEMARK OFFICE**

Application of: Ruben et al..

Application Serial No.: 09/880,748

Group Art Unit: 1631

Filed: June 15, 2001

Examiner: DUFFY, Patricia

Title: ANTIBODIES THAT  
IMMUNOSPECIFICALLY BIND TO  
B LYMPHOCYTE STIMULATOR PROTEIN  
(as amended)

Atty. Docket No. PF523P1

**IMAGE FILE WRAPPER EVALUATION FOR  
APPLICATION NO. 09/880,748 AS OF AUGUST 3, 2005**

Commissioner for Patents and Trademarks  
P.O. Box 1450  
Alexandria, VA 22313-1450

Sir:

During Applicants' interview with the Examiner on July 15, 2005, the Examiner asked Applicants to carefully review the Image File Wrapper (IFW) for this application and report any errors of which we are aware.

Because PAIR is a dynamic system that changes over time, Applicants make it clear that this evaluation was performed as of August 3, 2005. Moreover, Public PAIR and Private PAIR present the items in the Image File Wrapper in a different order.

Therefore, we wanted to define the process by which we evaluated the IFW:

1. The complete IFW was downloaded from Public PAIR.
2. A chart entitled Image File Wrapper Evaluation for Application No. 09/880,748 as of August 3, 2005 (Attachment 1, hereafter "IFW Evaluation Chart") based on the Public PAIR IFW Table of Contents (see Attachment 2) was created.
3. Each line of the chart was numbered from 1-110 (see Column 1, entitled "Line No. Public PAIR" in Attachment 1) for ease of reference.
4. The entries in the Public PAIR IFW Table of Contents were then cross-referenced with the entries in the Private PAIR IFW Table of Contents

(Attachment 3) which presents the data in a different order even when sorted by Mail Room Date. The printout the Private PAIR IFW Table of Contents in Attachment 3 contains handwritten line numbers that are referred to in the IFW Evaluation Chart, column 2 entitled "Line No. Private PAIR".

The final column in the IFW Evaluation Chart is the "Comment" column. Applicants have indicated letters for each comment we wish to make and describe the comments in more detail below. In the following discussion, when line numbers are referred to, Applicants are referring to the Public PAIR Line number shown in column 1.

***Comment A***

The Examiner's signature at the bottom of page 4 of this document is not visible. Applicants request that this page be rescanned.

***Comment B***

Applicants received an office action from the USPTO on June 16, 2004 that was intended for unrelated application No. 09/667,130 (the '130 application). Many of the Patent Office form papers associated with this Office Action erroneously bore the serial number of the present application, but the body of the Office Action, apparently drafted by the Examiner on June 8, 2005, contained the 09/667,130 serial number. The fact that some of the cover papers for the '130 Office Action bore the serial number for the present application resulted in their being erroneously entered into the present file history. Applicants previously requested that the PTO remove the '130 application Office Action from this application's IFW and that was apparently done. However, the supporting papers for the '130 application Office Action remain in this application's IFW. Applicants are certain that these papers should not be present in this application's IFW because a cursory review of the '130 office action showed that the '130 application had two claims (claims 22 and 23) under examination and that a prior art reference Kennel et al. was cited by the Examiner and provided to the Applicants of the '130 application. This information combined with the date of the papers make it clear that the each of the papers dated 06-16-2004 in the IFW of the present application are unrelated to the present

application and should be removed from this IFW. Applicants request that these papers be removed from the present IFW.

***Comment C***

Applicants' form PTO-SB08 citing references BE and BF is absent from this entry. Applicants note, however, that the initialed copy of this SB08 is present in the IFW as part of the "List of References cited by Applicant and considered by the Examiner" papers dated September 14, 2004 (see Line 19 of IFW Evaluation chart).

***Comment D***

Applicants filed a Provisional Election on July 7, 2003. For some period of time, this filing had been lost by the Patent Office. In October of 2003, Applicants were asked to supply a copy of the lost filing, which Applicants did (see, lines 31-35 of IFW Evaluation chart). Since then, the original Provisional Election filing has been found and entered into the IFW as of July 7, 2003 (see lines 36-69 of IFW Evaluation chart). In Applicants' "Transmittal to TC" filed October 20, 2003 (see Line 30 of IFW Evaluation chart) it was requested that the duplicate copy of the Provisional Election be entered into the IFW as of July 7, 2003 - the original date of the filing of the Provisional Election. Applicants made this request because they did not want the Patent Term Adjustment (PTA) software to use the wrong date for calculating any PTA to which Applicants may eventually be entitled. In view of this same concern over PTA calculation and in light of the entry of the original filing into the IFW (see lines 36 and 66-69 of IFW Evaluation chart), Applicants hereby request that all of the files associated with lines 31-35 (comment D) be consolidated into one file dated October 20, 2003 and labeled "Transmittal to the TC".

***Comment E***

Applicants' form PTO-SB08 citing references A-BD is absent from these entries<sup>1</sup>. Applicants note however that the initialed copy of this SB08 is present in the IFW as part of the "List of references cited by Applicant and considered by the Examiner" papers dated September 14, 2004 (see Line 19 of IFW Evaluation chart).

---

<sup>1</sup> The two entries are duplicates of one another due to the filing of the Provisional Election first on July 7, 2003 and again October 20, 2003 as described in Comment D.

***Comment F***

Lines 78, 82-88, 91 and 92 accurately represent the application as filed. Applicants Request that these entries be marked “AS FILED” in the Document Category rather than “PROSECUTION.”

***Comments G0-G12***

General

The original scans of the application marked “AS FILED” in the Document Category of Private PAIR (see lines 93-110 IFW Evaluation Chart) are fraught with errors as explained in more detail below. As an overview, very few entries are what they are advertised to be. Only the entries with a G0 comment are what they claim to be, see Lines 94, 95, 97, 105 and 108 of the IFW Evaluation Chart. The remaining entries, marked with a “G#” comment, contain pages that are unrelated to the present application or are subsets of pages of various portions of the application which are often out of order and mislabeled. Applicants request that these papers, with the exception of the OIPE and Scanning Division papers described in G6 and G8 be deleted from the IFW in view of the other accurate scans of the application as filed (see comment F above).

Specific

- G1 Pages 26 and 27 of this document are not related to the present application. The remaining pages are not “Transmittal letter” although they do appear to be a subset of pages from the specification and sequence listing of the present application.
- G2 While pages 1 and 20-34 of this document are the drawings of the present application, pages 2-19 of this document are a subset of pages of the sequence listing of the present application.
- G3 Pages 20, 53 and 54 of this document are not related to the present application. The remaining pages appear to be a subset of pages from the sequence listing of the present application.
- G4 These pages appear to be a subset of pages from the sequence listing of the present application.

- G5 These pages appear to be a subset of pages from the sequence listing of the present application.
- G6 Page 3 and 4 of this document are not related to the present application.  
Pages 1 and 2 of this document are Patent Office OIPE and Scanning Division worksheets.
- G7 Pages 1 and 2 of this document are the utility application transmittal and the fee transmittal filed in connection with the present application. Pages 3-234 of this document appear to be a subset of pages from the specification and sequence listing of the present application.
- G8 Pages 42 and 113 of this document are not related to the present application.  
Pages 1 and 2 of this document are Patent Office OIPE and Scanning Division worksheets. The remaining pages appear to be a subset of pages from the specification of the present application.
- G9 Pages 1 and 2 of this document are the utility application transmittal and the fee transmittal filed in connection with the present application. Page 3 of this document is the statement under 37 C.F.R. § 1.821(f) certifying that the paper sequence listing and the CRF filed in connection with present application are identical.
- G10 Pages 1-9 are a subset of pages from the claims of this application, Pages 10-296 are a subset of pages from the specification of this application.
- G11 Pages 1-15 of this document are the drawings of the present application. Pages 16-35 of this document are a subset of pages from the specification of the present application. Pages 36 and 37 of this document are the unsigned Oath or Declaration filed in connection with the present application.
- G12 Page 2 of this document is not related to the present application.  
Pages 1 and 3-15 of this document are a subset of pages from the sequence listing of the present application.

**CONCLUSION**

Applicants respectfully request that the comments set forth herein be considered and that the changes Applicants have requested for the IFW be effected.

Respectfully submitted,

Date: August 4, 2005

Michele Shannon
